## **...FOR PEACE OF MIND AT HOME**

Providing premium residential security services requires the right team of officers, the right orders, and the right training programs for each property. Our residential clients appreciate the ways in which our customized and selective hiring practices, proven training programs and value-driven operating principles provide them with vigilant, friendly and effective professionals that make arriving home a pleasant and safe experience every day.

From armed and unarmed access control and roving security officers, to front desk and concierge services; CSS USA will supply the expert, highly-trained and personable security staff your community requires.

For each gated residential community, apartment complex, and high-rise luxury we protect, a custom security structure, training program and staffing mix is developed to ensure each client receives the vigilance they require, along with the friendly, efficient customer service they demand. No one keeps your community running smoothly like CSS USA!
